

Top Pharmaceutical Companies in Pakistan

Martin Dow BUILT ON COMMITMENT

Commitment to growth

Founded in 1995, Martin Dow is a group of companies dedicated to Creating Distinction for Life and devoted to improving health and creating long term benefits for all our stakeholders. With the head office in Karachi, we have two manufacturing facilities in Karachi, one each in Lahore, Quetta, Gien and Meymac in France making Martin Dow Group the fifth largest conglomerate in the Pharmaceuticals industry in Pakistan based on IMS MAT June 2017.

The year 2000 saw the commencement of the manufacturing facility in Lahore. In 2010, the company acquired the pharmaceutical manufacturing plant of Roche Pakistan Limited, a subsidiary of F.Hoffmann-La Roche Ltd. (Switzerland), along with acquisition and brand licensing of some of their globally acknowledged top line products. This was one of the largest acquisitions in the pharmaceutical industry of Pakistan. In 2016, we acquired Merck Pakistan and also have access to Merck's Healthcare and Life Science portfolios. In yet another intrepid move, the company made rare forays into the French market through the

nutraceutical and pharmaceutical manufacturing facilities in Gien and Meymac respectively.

Today Martin Dow markets over 250 products and employs over 3,500 employees in multiple countries of the world. We take pride in serving families through market research based products and world-class manufacturing facilities and we have been serving the nation by producing high quality pharmaceuticals to improve the quality of life for all communities.

Commitment to innovation and quality

Quality is the soul of our operations at Martin Dow. Our manufacturing facilities provide the organisation with meaningful real-time visibility and operational edge to significantly contribute to the organisational goals. We take extreme pride in our comprehensive operational systems and follow the global framework as per current Good Manufacturing Practices (cGMP).

Martin Dow Group has high-tech computerised manufacturing and testing equipment so that highest standards of quality are achieved without compromise. Ninety per cent of our equipment are from European origin, com-

plying with international levels of quality.

We are manufacturing a wide range of pharmaceutical products including Tablets, Capsules, Dry Powder

Establishing new benchmarks and industry standards with a professional leadership team

Martin Dow Head Office in Karachi

Suspensions, Dry Powder Sachets, Oral Liquids, Sterile Dosage Forms (Ampoules, Vials), Soft Gelatin Capsules, Cephalosporins, Creams and Ointments.

Merck as well as Martin Dow are both ISO 9001, 14001 and OSHAS 18001 certified. Martin Dow has an enormous production capacity in each area of dosage form. The plants produce pharmaceuticals which are market leaders in their respective therapeutic areas.

Commitment to community

Under the umbrella of

Commitment to Community, we focus on Health & Education. One of our major projects includes providing quality health care facilities to IBA students, faculty and staff in the form of an urgent care centre. We are also proud of our association with Indus Hospital and SIUT.

Bestowing scholarships to IBA students, assisting for library & computer lab to COMMECS Institute of Business and Emerging Sciences (CIBES) and working with Pakistan Association of the Deaf (PAD) on the sign language curriculum for deaf

children. We have passionately helped society by participating in relief efforts after natural disasters.

Martin Dow recently joined hands with WWF to embark on a journey with 200 students at a Public School in Korangi.

Martin Dow and WWF held workshops with primary and secondary grade students based on a two month project with the aim to create 'Ambassadors for Tomorrow' through a curriculum aimed at building the confidence of students by exposing them to

public speaking, debating, career counseling and team building sessions, and sharpening their interpersonal skills.

Commitment to global partnerships

We are working with international companies to facilitate them on the introduction and establishment of their renowned brands in Pakistan. These include Teijin - Japan, Riemser - Germany, Meda - Sweden, Roche - Switzerland, Biocodex - France, and Merck - Germany. ■

Our Journey of success is measured in smiles

The thumb prints of our team represent our unique identity. An identity that is everlasting and irreplaceable and symbolizes our commitment to produce quality products accessible to all.

With continuous innovation & expansion, we are serving the community by playing a role in improving the quality of life... and your smile is a symbol of our success.
