

Martin Dow Group proudly participated in 4th Pakistan Pharma Summit as a founding partner. The theme for Pakistan Summit was Age of Data and Disruption focused on technological advancement of Pharma industry in the current digital age. The summit was another step closer to fulfilling Martin Dow Group Founding Chairman M. Jawed Akhai's dream of making Pakistan Pharma industry a leading player in global health solutions.

The summit witnessed a special tribute to Mr. Jawed Akhai, the Founding Chairman of Martin Dow Group. The current chairman of Martin Dow Group, Ali Akhai paid rich tribute to his father by saying "Pharma Industry was his first love. He was a firm believer of quality and standards; he played his part with dignity and honesty. He had a lot of respect for the Pharma Industry and was always a part of Pharma Summit."

The Pharma Summit attracted representatives from the Pharma Trade and industry from all over the country and it had representation from over fifty pharmaceutical companies with over two hundred and fifty registered participants. Professor Saeed Qureshi, Vice chancellor of Dow University of Health and Sciences was the chief guest in the inaugural session who presented mementos among the distinguished guest speakers and organizers.

The summit talked about the growing importance of digital technology, artificial intelligence, information technology in the pharmaceutical industry. Medical changes are going to change in future, so its high time to talk about how the physicians and patients can be engaged.
